Funding/ Support

- Cap and Trade Revenue
- Strategic Growth Council
- Adaptation Funding
- Foundation Support
- ARB and EPA grants
- Federal Partnerships
- Funding Wizard - www.coolcalifornia.org
- Americorp Programs
- Governor's Initiative

Since 2005

- EO S-03-05
- AB32 and the Scoping Plan
- Pavley 1 and 2 - technology
- Low Carbon Fuels Standard
- Renewable Portfolio Standard
- Cap and Trade
- SB375 - Regional Planning

- EO S-03-08
- California Adaptation Strategy 2009
- Cal-Adapt (CEC PIER)
- Agency Actions
- Adaptation Planning Guide

"The impact of climate change on our state is going to be significant. The timing of national climate action will determine how to the best of our ability prepare to do what is necessary to be successful in the long run."
-Governor Jerry Brown, 2012 State of the State Address

In 2050, California will have 50 million people...

"The long-term liability presented by global climate change is not a single, but a series of risks to public health, safety, and property that will be felt by the generations to come."

-Governor Arnold Schwarzenegger, 2003 State of the Union Address

In 2050, California will have 50 million people.

CALFORM

The Long View

“... no long term liability presents as great a danger to our wellbeing as the buildup of carbon dioxide and other greenhouse gases in the atmosphere.”

-Governor Jerry Brown, 2013 State of the State Address

In 2050, California will have 50 million people...

CA@50M

The Long View

“... no long term liability presents as great a danger to our wellbeing as the buildup of carbon dioxide and other greenhouse gases in the atmosphere.”

-Governor Jerry Brown, 2013 State of the State Address

In 2050, California will have
50 million people...

CA@50M

A stylized illustration of a tree with a thick brown trunk and branches, set against a light blue background. The tree is positioned on the right side of the slide. The background also features a light green hill and a blue sky with some green foliage at the top.
