

## Our Mission

The San Diego Regional Climate Collaborative is a network for public agencies that serve the San Diego region to share expertise, leverage resources, and advance comprehensive solutions to facilitate climate change planning. By partnering with academia, non-profits, and businesses, we also work to raise the profile of regional leadership.

# Climate Collaborative

## SAN DIEGO REGION

- » Recognized as an innovative partnership model by the U.S. EPA and received the 2015 Climate Leadership Award.
- » Received \$680,000 NOAA Grant for Protecting Region's Coastline.
- » Implemented best practices and models for advancing energy efficiency:
  - Streetlight retrofits
  - Energy mapping
  - Green business programs
  - Programmable thermostats
  - Energy efficiency trainings
  - Zero net energy
  - Financing and audits
  - Home energy coaching
- » Hosted regular network meetings to share local climate and energy practices, spotlight financing opportunities, and state-wide legislation and policy changes.
- » Provided no-cost professional trainings to over 200 participants on climate change.
- » Coordinated a Regional Sea Level Rise Working Group to support coastal resilience efforts.
- » Showcased efforts at the San Diego Watershed Summit and the California Coastal Symposium.
